

# Sell to every seat in the **cinema**.

SeatServe takes your counter to the customer's seat. Guests scan the seat QR, build one cart across every store, and pay once — your kitchen fires the ticket, our runner delivers, and the money settles to your bank. This one-pager is everything a store manager needs to go live.

- **Commission 10–14%** of item value, by category and fixed in your agreement, with no hidden charges.
- **Customer pays a 5% platform fee** on top of menu prices; it is never deducted from your payout.
- **Gateway fee (~2%)** is absorbed by the platform, not the store.
- **Settlements every T+2** to your bank account via Razorpay Route, with a per-order ledger.
- **GST on food is yours** to remit; we invoice the platform fee monthly.
